

**AMENDMENT AND RESPONSE UNDER 37 CFR § 1.111**

Serial Number: 10/621,061

Amendment dated August 29, 2006

Reply to Office Action of March 29, 2006

Page 2  
Dkt: USF-005**Amendments to the Claims:**

This listing of claims will replace all prior versions and listings of claims in the application:

**Listing of Claims:**

1. (currently amended) A method for purifying [[an]] a human immunosuppressant protein (HISP) the method comprising:
  - a) obtaining supernatant from hNT cells;
  - b) exposing the supernatant to preparative polyacrylamide gel electrophoresis to produce 20 isoelectric fractions, including active isoelectric fraction #10;
  - c) placing the active isoelectric fraction on a Blue Sepharose column to bind albumin; and
  - d) collecting the free fraction containing the concentrated, isolated HISP.

Claims 2-5 (cancelled).

6. (currently amended) The method of claim 1 wherein step a is followed by and step b is preceded by the step of i. concentrating using ultrafiltration.

7. (currently amended) The method of claim 1 wherein step a is followed by and step b is preceded by the step of i. fractionating the supernatant on a Sephadex gel.

8. (currently amended) The method of claim 7 wherein the next step is ii. combining groups of five collected fractions and optionally determining the peak active fraction.
